Jamie Hintlian is a Visiting Lecturer, Operations Management and Technology at Cornell Johnson Graduate School of Management. Jamie presently leads courses in applied operations strategy, has led the Semester in Strategic Operations (SSO) Immersion class (spring 2017), and will be supporting SSO in the 2021-2022 academic year. Jamie has also been the co-instructor for the Digital Technology Immersion program at Johnson

Jamie is also the Chief Operations Officer for The Leavitt Corporation, a manufacturer of food products with international distribution. Prior to joining Leavitt in the summer of 2018, Jamie was a senior Partner/Principal in the Advisory Services practice of Ernst & Young (EY), and led the Life Sciences Supply Chain practice for the Americas.

In his consulting work, Jamie helped his clients improve their supply chain performance, including manufacturing strategy, plant operations, distribution & logistics, supply planning, and supply chain risk management. He has been a pioneer in leading industry initiatives concerning drug pedigree/track-and-trace management, safe and secure supply chains and regulatory compliance.

Before EY, Jamie worked over 20 years at Accenture, where he also led the Global Health and Life Sciences Supply Chain practice. Additionally, Jamie built and led the Pharmaceutical Business Unit of Aspen Technology, a leading provider of manufacturing and engineering solutions to process industries.

Jamie earned a BS and Master of Engineering in Operations research from Cornell University, and MBA also from Johnson at Cornell.
